March 1, 2011

Dear Valued Customer:

**Voltronics Corporation** is pleased to announce the planned relocation of our company headquarters and manufacturing facility by the end of September, 2011. We will be relocating to Salisbury, Maryland, the current location of K & L Microwave, a Dover Company, and sister Ceramic & Microwave Products (CMP) Company.

We are excited about our new location and the additional resources available. This modern, vertically integrated, spacious facility will greatly improve our engineering and manufacturing capability while maintaining and enriching our customer focus. We will continue to offer technological solutions that will support our valued customers with an ever growing array of products and services.

**Voltronics Corporation** pledges to continue a proud tradition of customer service excellence; with nearly 50 years of Trimmer Capacitor experience, we remain as committed as ever to maintain a leadership role in this industry.

We will provide additional details during this process. Should you have questions or concerns we invite you to contact us at 973-586-8585. Or, if you would prefer, contact me personally at [agoldberg@voltronicscorp.com](mailto:agoldberg@voltronicscorp.com).

Sincere Regards,

Aaron Goldberg  
General Manager
