**Subject: Voltronics Purchases Manufacturing Rights to Sanshin Half Turn Trimmer Capacitors**

Dear Valued Customer,

Voltronics is excited to announce that we have purchased the manufacturing rights to Sanshin Electric's line of half turn trimmer capacitors. For many years now Voltronics has been the sole distributor of these high quality products in The United States; now, as the manufacturer of this product we will be supplying them throughout the world.

In making this change the manufacturing process and machinery remain in Japan but have been relocated to a new facility in Kameoka Japan. The trimmers will be produced, on behalf of Voltronics, by the company that originally designed, built and maintained the manufacturing equipment. Because of this expertise, we expect a seamless transition and continued supply of the quality product you have always received.

Going forward orders for Half Turn Trimmer capacitors will be placed with Voltronics in the US. Factory sales coverage will be handled by Voltronics' experienced trimmer capacitor sales personnel listed below:

Voltronics Factory Sales Personnel				
Name	Sales Coverage Area	Email address	Office Phone	Cell Phone
Dawn Gallick	Europe	<a href="mailto:dawn@voltronicscorp.com">dawn@voltronicscorp.com</a>	410.749.2424 ext 3910	973.997.3821
Marc Rinaldi	Asia	<a href="mailto:marc@voltronicscorp.com">marc@voltronicscorp.com</a>	410.749.2424 ext 3911	973.461.3599
Brian Rowe	Medical Accounts	<a href="mailto:brian@voltronicscorp.com">brian@voltronicscorp.com</a>		973.819.6344

In addition to the factory sales resource Ceramic and Microwave Products retains a direct outside sales force to assist our customers locally. You will be contacted by one of the CMP sales personnel listed on the next page to assist you with your half turn trimmer capacitor needs.

At Voltronics we are very excited to introduce this product to our worldwide portfolio and we look forward to working with you in the future.

Regards,

Jeffrey D Burkett  
Director of Sales and Marketing
